

STEEPLECHASING

You will need a map and a pencil, pen or marker

The Task

- What you need to do is to walk along all (if you can) of the roads and footpaths in your allocated area.
- As you walk, note on the map all the specific places or lengths of road/path from which you can see the church spire, even just its tip.
(We will then assume the spire will not be visible from any place/length not marked!)

It's good to plan your route in advance.

Three areas as on map:

- **East area:** This should be straightforward. Go into the area but also do the main roads to north and south.
- **North village:** As well as walking within your area, go out a little along footpaths and roads and look back.
- **South village:** As well as walking within your area, go out a little along footpaths and roads – e.g. to the Recreation Ground and out along Church Hill - and look back.

You can chose one area or all three.

Please leave completed maps in the collection box located at St Nicholas Church Porch.
